

# PXI: Patient Engagement + Innovation Center

**About the National Health Council:** The National Health Council (NHC) promotes understanding and consensus to drive patient-centered health policy and practices that advance patient engagement and health. For more than 100 years, the NHC has been and continues to be a unique source of expertise and support for patients and decision-makers. Nearly 200 national health-related organizations and businesses are NHC members, including the nation's leading patient organizations that collectively represent some 200 million Americans with chronic conditions and disabilities.
