

NATIONAL HEALTH COUNCIL

2026 Dues Schedule Business & Industry Organizations

Dues are a vital source of income for the National Health Council (NHC), allowing us to meet our mission of providing a united voice for the 160 million people living with chronic diseases and disabilities and their family caregivers. Dues are for the calendar year. First-year dues will be prorated from the date that the NHC's Board of Directors approves the member's application.

Business and Industry: Business and Industry members share a focus on providing goods, services, and knowledge that are disseminated through the health ecosystem to aid in the treatment and management of chronic conditions and disabilities. Also included in this category are nonprofit associations that represent the business interests of certain sectors within the health ecosystem.

Business & Industry Subcategory	Current Rate*
Emerging**	\$5,150
Associate***	\$20,600
Nonprofit Health Sector Trade Group****	\$25,750 \$12,360****
Business	\$41,200

*The dues rates will be reviewed annually for inflation adjustments and bi-annually for other rate adjustments.

**B&I companies are bringing new and innovative ideas to the health care space but have not established a revenue stream and begun generating revenue. Once they are established in the sector, the expectation is for these members to convert to full Business members.

***Associate members are interested and committed to the NHC mission while exploring their role within the NHC community. Members will be invited to stay in this rate category for a maximum of three years, and then they must convert to the full rate. Associate members have all member privileges; except they are not invited to be represented on the NHC's Board of Directors or Nominating Committee and cannot vote at meetings of the entire membership.

****This dues rate will be used for Nonprofit Health Sector Trade Groups whose annual revenue is under \$20 million.
